

# STARLINE GIVES YOU MORE FEATURES

ALL MODELS

## 1. FLUSH FRONT

New flat front design provides a flush finish that doesn't protrude into busy staff walkways, is strong, easier to clean and more compact.

GL/GLU/UD

## 2. STAINLESS STEEL ARMS

New stainless steel wash and rinse arms feature powerful KnifeJet sprays for greater spread and higher performance. Removable arms and end caps make cleaning easy.

GL/GLV/UD

## 3. INSULATED DOOR

For energy savings and a cooler and quieter work environment. The magnetic door switch ensures the machine will not operate unless the door is properly closed.

G SERIES

## 4. REMOVABLE RACK ADAPTOR

Universal rack adaptor accepts a variety of rack shapes and sizes and is easily removed for cleaning.

GL/GLV/UD

## 5. DOUBLE FILTRATION

The L shaped wash tank provides double filtration to ensure effective separation, collection and removal of food scraps to keep wash water clean.

GL/GLV/UD

## 6. ONETOUCH CYCLE CONTROLS

Reliable electromechanical top-mounted controls with instant choice of 1, 2, or 3 minute wash cycle at the touch of a button.

GLV/UD

## 7. NEW AUTODRAIN FACILITY

Now available in the GLV and UD models. Eliminates the need for staff to remove and replace the drain upstand.

GLV/UD

## 8. ONETOUCH GIVES EASY DRAINING

This intuitive feature means that a GLV or UD machine from Starline always drains at the easy touch of a button.

GL/GLV/UD

## 9. THOROUGH CLEANING EVERY TIME

Staff can always select the appropriate wash cycle for every load, ensuring that even heavily soiled items are thoroughly cleaned at no extra cost.

Some machines do not incorporate all features. See specification sheets for details.

In line with our policy to continually develop and improve our products, we reserve the right to change specifications and design without notice.

# THE NEW INDUSTRY STANDARD IN UNDERCOUNTERS

## G SERIES GLASSWASHERS

## U SERIES DISHWASHERS

More models, more features and more innovation.

**STARLINE**  
the superior solution

The new undercounter glass and dishwashers from STARLINE combine proven performance with technical innovation from Australasia's largest manufacturer of commercial glass and dishwashers.

STARLINE dishwashers are compact, fast, economical and highly effective in meeting the strictest regulatory hygiene requirements. Nobody else offers you so many precision engineered glass and dishwashing options carefully tailored to your needs.

All STARLINE machines are manufactured in New Zealand to ISO9001 international standards and are backed by comprehensive after sales support.

As part of the international ALL group, STARLINE manufactures the largest range of undercounter glasswashers and dishwashers, along with passthrough and rack conveyor dishwashers, glasswashers and warewashers.

### GL Premium Glasswasher & Light Duty Dishwasher

All the features of the GM plus ergonomically positioned OneTouch top controls giving instant 1, 2, or 3 minute wash cycles. Buttons feature combined start and cycle selection so staff can maximise the wash time to clean more heavily soiled sideplates and cups - ideal where sandwiches, pastries or light snacks are served.

### GM High Performance Glasswasher

This recirculating glasswasher exposes washware to high volumes of water - 100 litres per minute for enhanced wash effectiveness. Double filtration helps keep water clean. Compact height of 840mm.

### GE Economy Glasswashers

Incorporates new G Series design features. Ideally suited to sanitizing lightly soiled glassware with a 60 second cycle. Detergent injector and universal rack adaptor are standard.

### GLV Market Leading Compact Dishwasher

- Compact unit takes up less underbench space yet offers increased door height for latest designer crockery.
- High performance - up to 55 racks per hour of crockery, cutlery, glassware using 435mm racks.
- Pump recirculates wash water through upper and lower wash arms at 220 litres per minute.
  - New AutoDrain facility - this intuitive feature means that the machine drains with the touch of a button.
- Easier cleaning - double filtration ensures separation of food scraps.
- OneTouch quick start.

435x435

#### TALLER CLEARANCE

350mm tall door on the UD dishwasher and 320mm on the GLV easily take large designer crockery.

### UD High Performance 500mm Rack Dishwasher

- The UD offers a wider wash chamber and the largest door in our range with convenient 350mm clearance for contemporary crockery.
  - Fast operation gives 55 racks per hour utilising full 500mm racks.
  - The new AutoDrain feature eliminates the drain upstand and avoids hands in hot water.
- Double filtration separates food waste for easier cleaning.
- OneTouch quick-start controls give 1, 2, or 3 minute wash cycles at the touch of a button.
- The UD cannot inadvertently be left on the shortest cycle. You can instantly select a longer cycle for better wash performance at no more cost!

500x500

Stylish new flush front insulated door is strong and durable. Because it is more compact it does not protrude into the work area and it is easier to clean.

Easy OneTouch controls give you the choice of 1, 2, or 3 minute wash cycles at the touch of a button. You can easily match the cycle to the soil level for optimum performance.

FastClean features include double filtration to make internal cleaning so much easier and quicker. Waste collects where it is easier to reach and to remove.

New stainless steel arms incorporate our unique high performance KnifeJet wash system to cut through the soil with greater impact pressure over a 77 degree spray pattern.
