# Troughs

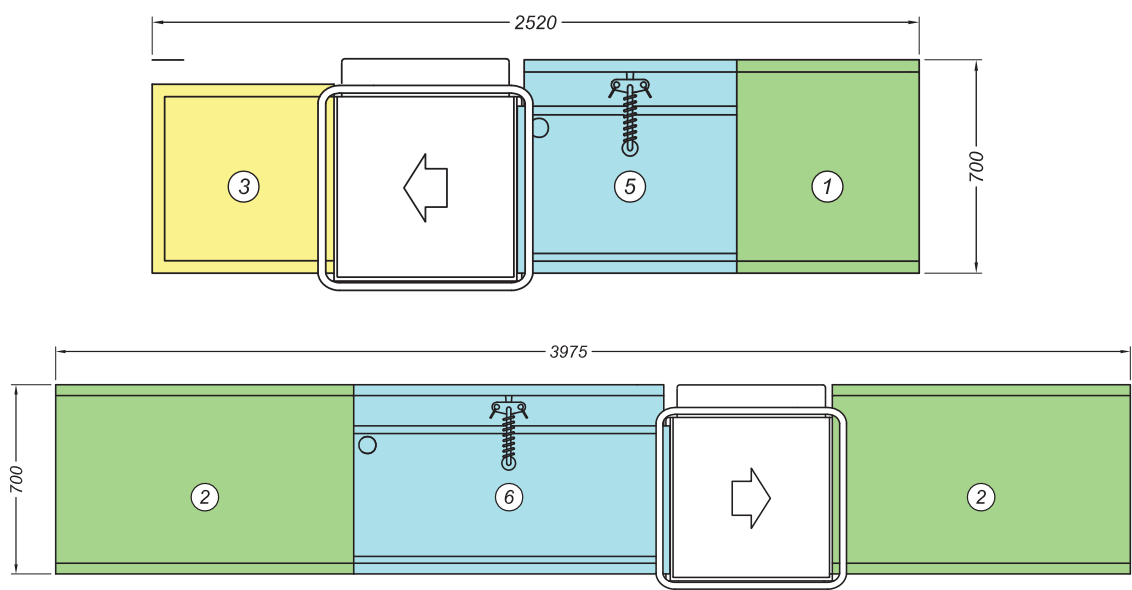

The heart of the Washtech Modular Bench system is the trough which is available in 700 and 1100 mm widths. Features include:

- Easy installation
- Easy connection direct to Washtech dishwashers
- Easy connection of benches to the trough
- Easy installation of pre-rinse unit to trough including wall bracket
- Easy sealing of unit to the wall
- Easy access to plumbing connections
- Easy cleaning with unique scrap retention filter strainer
- Easy cleaning with large backsplash
- Easy filling of sink with drain upstand included
- Easy shipping with legs flat
- Easy assembly with screwdriver and 8mm spanner
- Splash guards both ends
- Rack storage underneath - with legs - included standard
- Double rack storage on 1100 unit
- Slides for the rack to pass easily across the trough
- Optional Overhead Rack-holders for 2 racks on 1100 unit
- Reversible - for either direction
- Part of a comprehensive modular wash station system
- Double rack storage on 1100 unit
- Optional Overhead Rack-holders for one or two racks on 1100 unit

# Modular Layouts

Washtech offers a series of modular benching solutions designed specifically for our passthrough range of dishwashers. You can quickly create a highly efficient wash station for corner or in-line installations in either direction. Modular units are supplied flat packed for easy transportation and assembly.

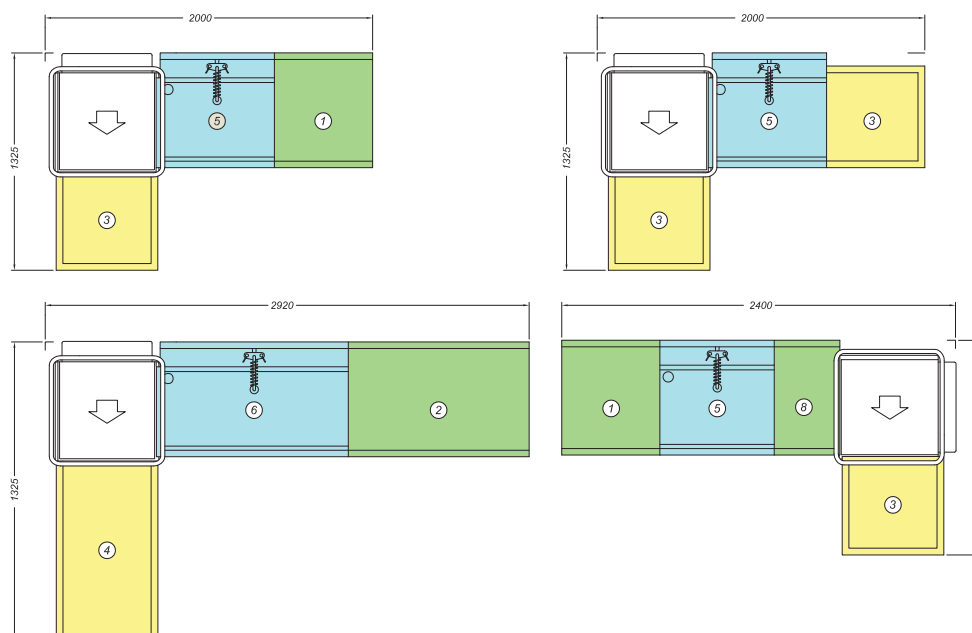

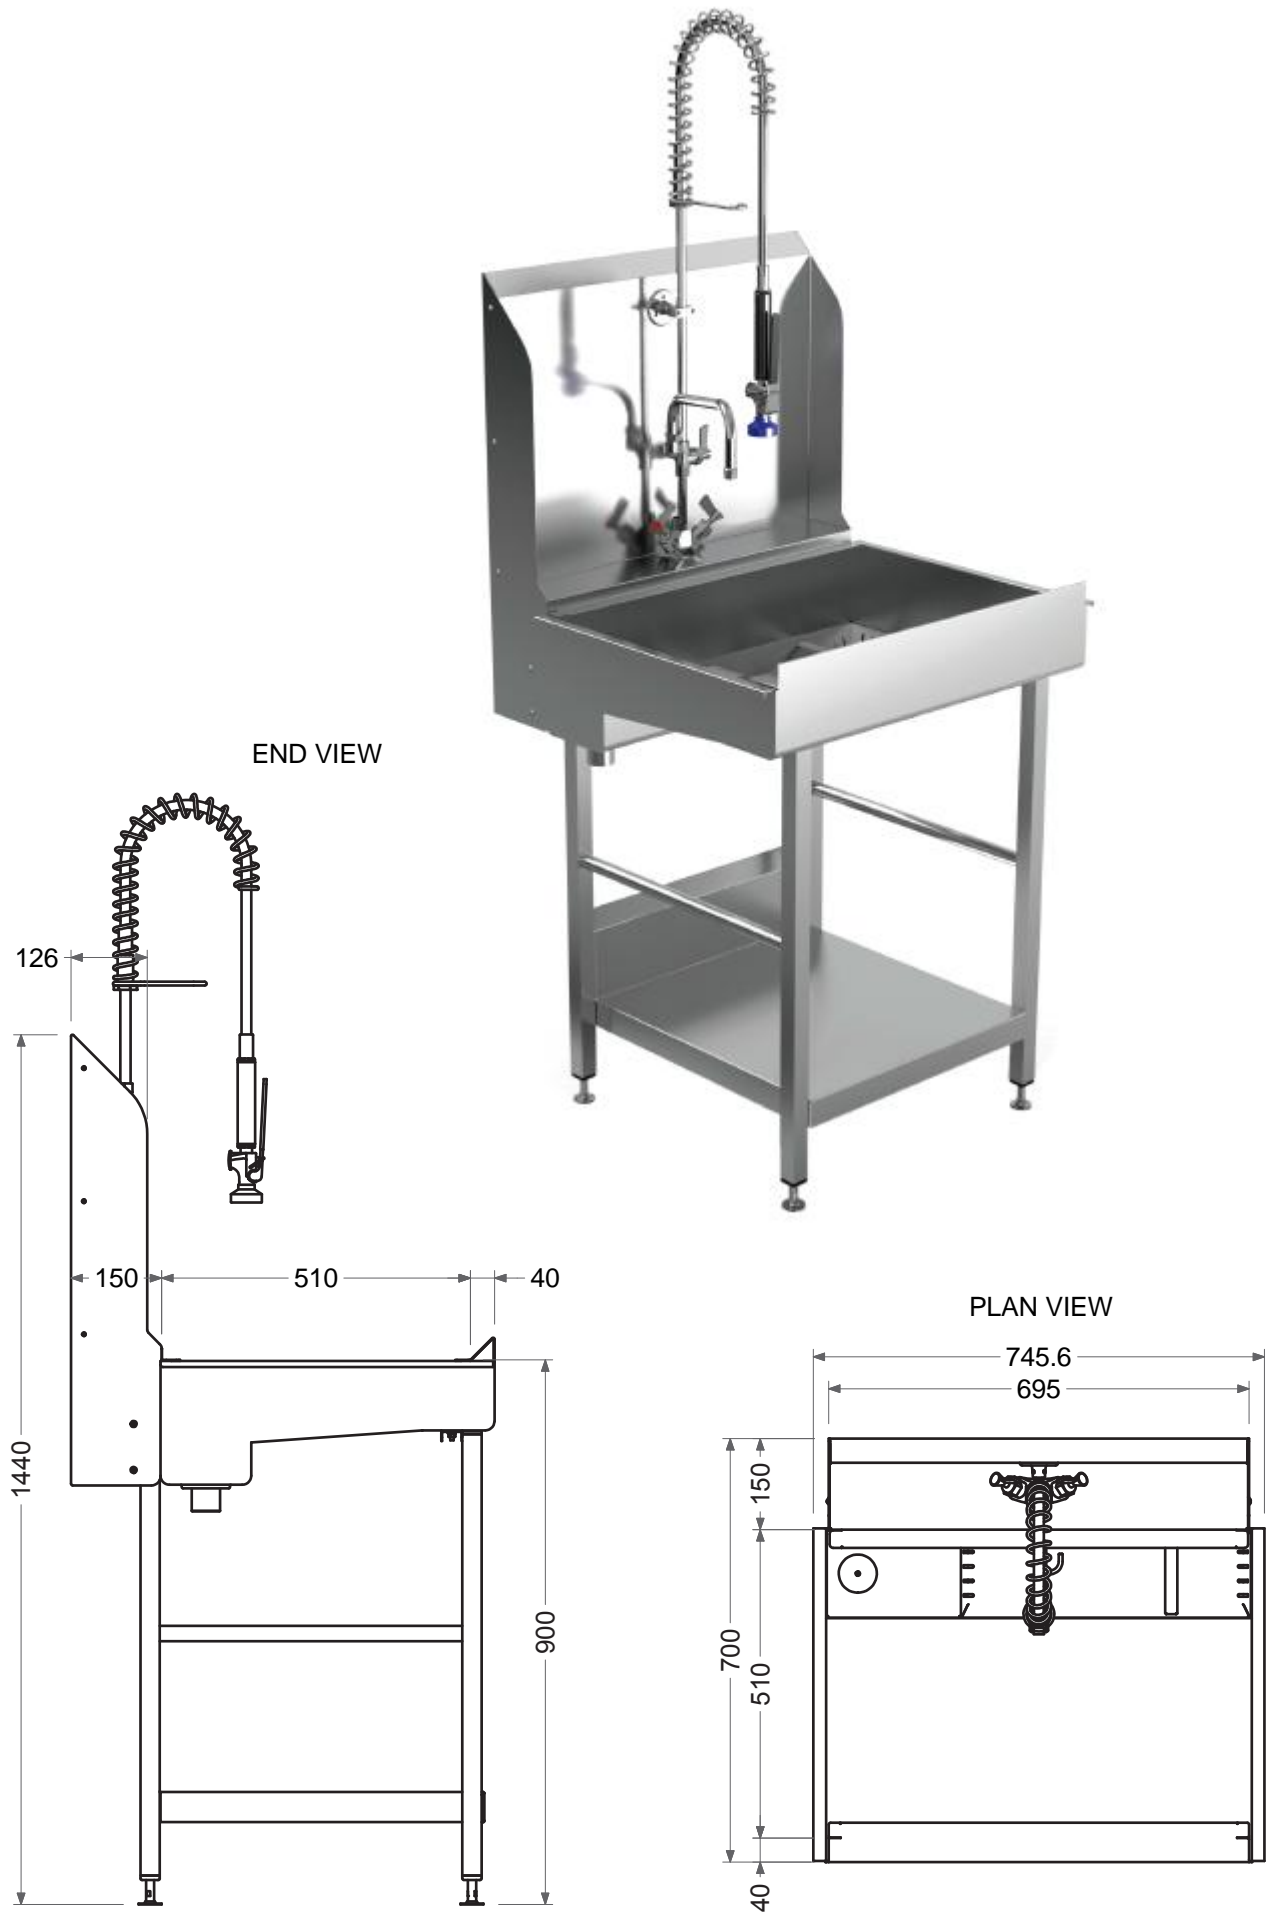

#### Modular Benching applications

1	B4010600	Bench setdown 600mm	W 600mm x D 740mm x H 900mm
2	B4011100	Bench setdown 1100mm	W 1100mm x D 740mm x H 900mm
3	B4020600	Bench outlet 600mm	W 600mm x D 600mm x H 900mm
4	B4021100	Bench outlet 1100mm	W 1100mm x D 600mm x H 900mm
5	B4000700	Trough with rack stand 700mm	W 700mm x D 740mm x H 900mm
6	B4001100	Trough with rack stand 1100mm	W 1100mm x D 740mm x H 900mm
7	B4030500	Rack stand 500mm	W 500mm x D 500mm x H 900mm
8	B4000001	Bench bridge L corner 400mm	W 400mm x D 550mm x H 900mm
9	B4000002	Rack holder 500mm	W 500mm x D 550mm x H 900mm

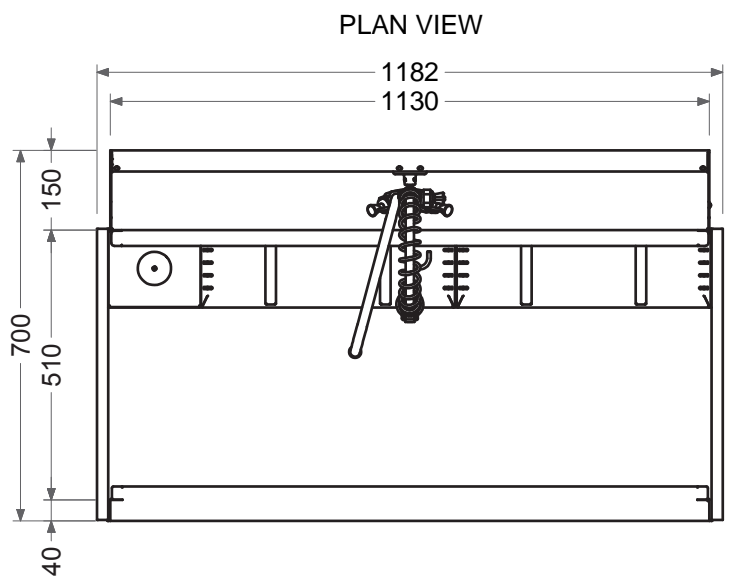

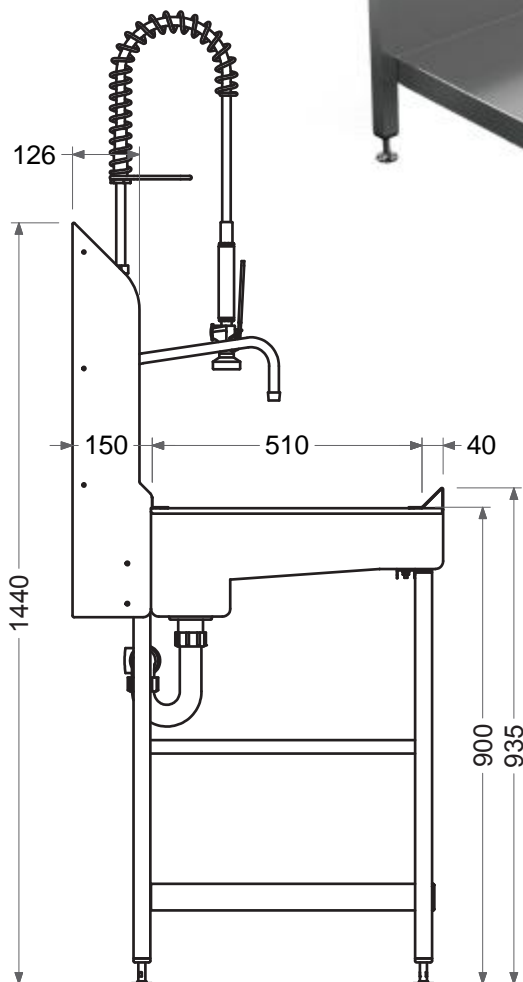

All items are reversible and suitable for in-line or corner installation of Washtech AL, M2 and XP dishwashers. The bridging piece (item 8) must be used in left to right corner installations (only) to provide access to the dishwasher for servicing.

## 700mm TROUGH

## 1100mm TROUGH

# Corner Installations Left to Right

When Washtech Dishwashers are installed in corner installations the front of the machine must face left to ensure that controls remain near the operator.

Allowance for service access from the left is very important. We recommend use of the **400 bridge** between the trough and machine on Left to Right corner installations.

# Uni Bench

The Washtech UNI- BENCH is an extremely versatile bench - it can be fitted to Washtech dishwashers in many different ways.

Note that small cuts need to be made on the edge of the bench depending on the layout required - guide holes are pre-cut into the edge of the bench.

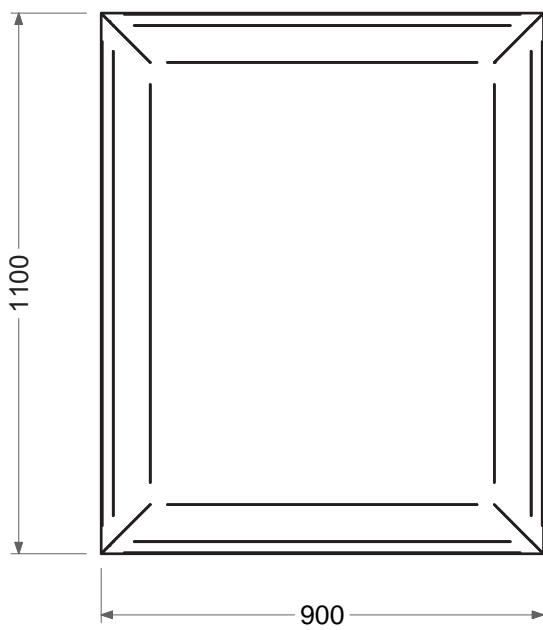

There are three options:

1. UNI bench standard - suitable for inlet to trough
2. UNI bench setdown - with splashback
3. UNI bench setdown with rack shelf a double rack set down station with overhead shelf for two racks racks may be placed one side or other room for two racks upper rackshelf one rack plus dishes across table compatible with Washtech troughs

### SETDOWN TABLES

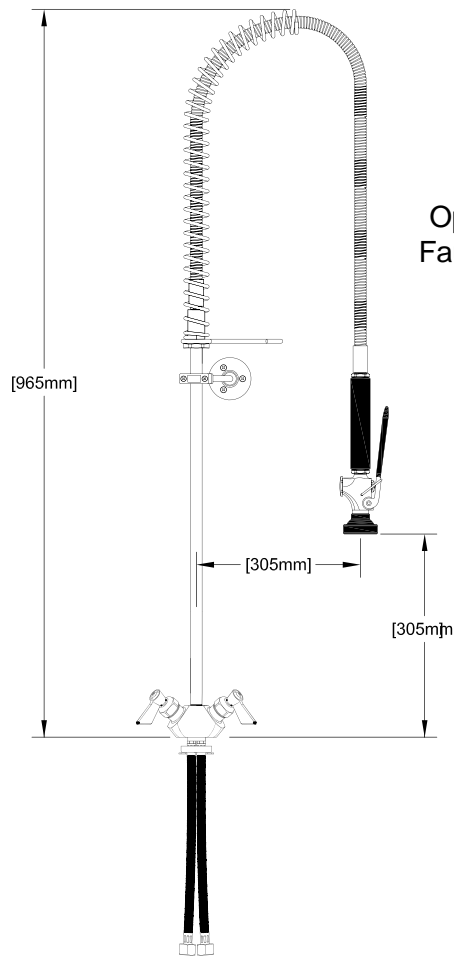

Setdowns hook over the edge of the trough and the dishwasher. A small cut is required to be made in the face of the bench close to the rear of the machine - refer detail edge profile below.

Holes are provided to suit different models - cut from bottom edge up to hole for relevant model.

The tables can be secured below with the clamping bracket
